

Heavy fog in the early morning hours this season, is reducing visibility. Drive your vehicle at a slow to moderate pace to avoid accidents. Be careful & follow the tips given below. #DriveSafe.

## DURING FOG DRIVE SLOW

- 1 Turn on the car's wipers & defroster.
- 2 Don't play music in the car. Concentrate on driving.
- 3 Drive with dipped headlights.
- 4 Use the left edge of the road to guide you.
- 5 Never try to overtake.
- 6 Honk at regular intervals to make your presence felt.
- 7 Don't hit brakes in panic. There might be a car close behind you.
- 8 Don't be so slow that you cause inconvenience to others.
